Seranton Loses Another Game and Drops Deeper Into Mire.

ALTOONA PROVED TOO STRONG

Flanagan Weakened in the Eighth and the Mountaineers Batted Out Six Runs-Only One Other State League Game Played Yesterday-Allentown Defeats Pottsville - Other Games Played Yesterday.

CRANTON clinched its hold on the tail end position yester-day by allowing Altoona to defeat Flanaghan hed for "our nitched for pets" and held the mountainers down well until the eighth inning when

they balled out six That settled the game and Scranton settled back in easy confidence that it is firmly fixed in the position at the foot of the league ladder. Rain prevented the game at Harrisburg which no doubt prevented the

genators from adding to their lead.

GLINTS FROM THE DIAMOND.

"Sandy" Griffin, released by Buffalo, has signed with Syracuse. Wilkes-Barre led the Eastern league

It was a hard struggle, but Scranton has managed to reach the tail end. Hugh Jennings, of Avoca, the brilliant short stop of the Baltimore club, was touched for a \$150 diamond during a recent game in New York.

o' the National league as first baseman, with percentage of .937 in fielding. The Penn Avenue Stars challenge any for each lady.

club under 18 years of age. Answer through The Tuisune. G. Doan, captain; W. Prim, manager. The Wilkes-Barre News Dealer is authority for a rumor to the effect that Pitiston will make an effort to get in the State

eague next season. Washington wants to trade their short stop, Sullivan, for McMahou, short stop of the Wilkes-Barre club. The latter formerly played with Washington.

Philadelphia has three players, Turner, Delehanty and Thompson, who lead the National league in batting averages up to date. Benner leads the second basemen

Uncle Anson has signed Pitcher Terry, recently with Pittsburg, for whom Man-ager Burns was making a bid. Pitcher Knell, released by the same club, has been signed by Louisville.

Yale Murphy. New York's great find for shortstop, seems to be doing very poor work of late. In the last nine games Murphy has only made six hits, all singles. and averal of them rank as scratches. He has also scored but five runs, which is in striking contrast to his work in this line n the first fourteen games, when he scored

eighteen runs.

Well, nothwithstanding the loss of four games last week, and the many unkind words that have been said of King Kelly words that have been said of King Kelly and the rest of his team, the Allentown club is still in second place. What is more, Kelly does not propose to let the grass grow under his feet and says that before many suns have set his team of extenguers will be on top of the heap and that every blow of the "hammer on the anvil" (as Kelly terms the newspapers and outside harsh criticisms will ea crown on his head and on that of his players. Well, this is the kind of talk we like to hear from the Honorable Mike. Now, Well, this is the kind of talk we like to hear from the Honorable Mike. Now, let's "jolly" the team along and promise that if they play the good ball this week that they are able to play all will be forgiven. We are still of the opinion that if Allentown plays the game of which it is capable, none of the other State League clubs are in it with them "Allentown clubs are in it with them .- Allentown

SILVER SEEMS VERY POPULAR.

New Fancy Articles Made of That Metal. Parisian Lace Embroidery.

There seems to be a demand for silvered fancy articles this season. Not only are the usual silver washed photograph frames and puff boxes displayed, but a host of smaller trifles—little jewel baskets with openwork edges run with ribbons, tiny pincushlons in all sorts of forms with velvet tops, calendar frames and similar articles. In sterling ware the crop of souvenir spoons is as arge as ever, and the damaged reputation of silver does not seem to have affected their cost, but stickpins and mounted pocketbooks are shown at reasonably low prices. Something new in plated goods has recently been brought out in the shape of an orange holder. It consists of an openwork

hemispherical cup, of the right size to hold half an orange, affixed to a flat standard, and is a pretty and convenient addition to the table service, In the matter of fancy work, fashion is

unmistakably retrograding. For 10 years past we have enjoyed the reign of good taste. In place of stiff monstrosities of embroidery in crude and impossible colors, artistic adaptations of natural forms have been used, worked in subdued but truthful tints. Now there is a revival of the former meaningless ornamentation, unpleasing in both detail and general effect. Canvas cross stitch patterns are reappearing, and it looks very much as if old fashioned woolwork-ottoman covers, slippers and that sort of thing-were on its way to the front once more.

Parisiennes are pretending to busy themselves over a new kind of work which they call lace embroidery. A sketch is given of a pincushion cover in this style. A stiff spray of flowers is outlined with twisted white silk cord on a red or old gold sating ground, while the inside of the petals and leaves is filled in with a variety of small fancy stitches in white silk, which yet allow the satin ground to show. The stems are worked in regular stemstitch, not too close. This is a simple and rapid sort of embroidery and may be employed for other articles than pincushions—only do not expect anybody to recognize the species of flower represented. JUDIC CHOLLET.

One of the most curious packages that have reached the dead letter office was one addressed to a lady in Springfield, O., who has never been found. It was a small six barreled revolver, with every chamber loaded, and set at the full cock. The wonder is that it did not go off when the parcel was opened.

Things Women Want to Know. French coats fall open in such easy and graceful fashion this season that they are called jackets to distinguish

them from the closely fitted conts of The bolero is the name given several short jackets that are a feature of French dresses and promise to be as popular as the Eton jacket of last year.

Black or blue some makes an excellent dress for hard usage.

Tailors will continue to make long coats, as many women of fashion object to short jackets even for warm weather. The shirt waists made by tailors are

of cotton cheviots, madras or percale in very light colors. They are made with pointed stitched yoke and are gathered below the throat and at the waist in front and back. They have standing collars or else turned over collars attached to a high standing band that is

fastened by two buttons. Checked silks are very fashionable. Moire silks and ribbons are in great
